

KENET EZME MAKİNASI LOCK SEAMER MACHINE

TEKNİK ÖZELLİKLER VE STANDART DONANIM

- » Redüktör tahrikli ezme sistemi
- » Pnömatik basın piston sayesinde kolay kullanım
- » Standart ayak pedali ile hem ezme hem dönüş kontrol edilir
- » Hava şartlandırıcı sistemi ile pnömatik sistem koruma altına alınır
- » Sertleştirilmiş ezme topları
- » Rulmanlı kızak sistemi
- » AB Güvenlik Direktiflerine Uygunluk (CE)
- » Kullanma kılavuzu

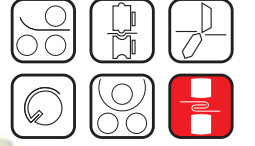

TECHNICAL SPECIFICATIONS AND STANDARD ACCESSORIES

- » Gearbox driven pinching system
- » Easy operation by pneumatic pressing piston
- » Pinching and rotation is controlled by a standard foot pedal
- » Pneumatic system is protected by the help of air filter
- » Hardened seaming rolls
- » Sliding system with ball bearing
- » Built according to EC Safety Directives and has CE Mark
- » User's manual
